

Optimize Your Productivity, Simplify Operations and Drive Efficiencies for Your Organization.

DN AllConnect Total Implementation ServicesSM

Your branch or store has to deliver new and enhanced functionalities while reducing the total cost of ownership. Yet delivering on new experiences can be overwhelming for internal teams that are already charged with day-to-day responsibilities. With the right partner, your complex hardware and/or software installations can run smoothly, seamlessly and quickly, to match the pace of today's evolving consumer expectations.

I want to boost **AVAILABILITY** of my devices, stores and branches.

I want to implement new innovations and self-service tools **ACCURATELY** and **ON TIME**.

I want my consumer's experience to be **PERSONALIZED** at just the right **SPEED**.

I want to **TRANSFORM** and **FUTURE-PROOF** my business.

THE REALITY IS...

56% of banks surveyed globally say they plan to increase the number of ATMs in their network in the near term.¹

72% say ATMs will increase in importance with the introduction of new transactions and functions.²

58% of retailers identify software and hardware upgrades and updates as a key business challenge.³

GET THE END-TO-END SUPPORT YOUR ORGANIZATION REQUIRES.

Diebold Nixdorf serves as an integrated service provider through the whole implementation process. Based on standardized processes, TIS complements your organization's needs throughout the entire lifecycle of your product or project—regardless of equipment or manufacturer. Our local experts harness the expertise and knowledge bank of our global service network to ensure a seamless implementation with minimized business interruption.
